

Affordable Online Disability Awareness Training

Online Training Makes Sense

PRACTICAL eLEARNING AVAILABLE ANYWHERE & ANYTIME

Online courses are quickly becoming a popular form of training. We offer self-paced, web-based courses developed by the Community Education and Training department at SMD Services. The course modules are developed using learning materials from classroom training.

With the Province of Manitoba moving closer towards implementing effective **Barrier-Free** legislation, our training will help you prepare to remove barriers and become more accessible. There are many simple things you can do to help

people with disabilities, through our eLearning you will discover some practical tips. Our online course is fun, practical, and easy to follow. Navigate through a course sequentially from beginning to end with fun games and quizzes after each module and a final quiz. Upon completion of the course learners will receive a personalized certificate. You can contact us at any point during the course with questions or feedback.

Easy to understand navigation helps online learners move through eLearning courses with confidence

CHOICE

Learners are able to receive training that isn't offered in their geographical area.

PACE

eLearning allows learners to work at their own pace.

OPEN SCHEDULING

Online training allows learners to be in charge of their time and schedule accordingly.

SAVINGS

Online training is often less expensive than traditional classroom training.

NO COMMUTING COSTS

Learners who choose online training save on gas, parking fees, bus fare and commuting time.

EFFECTIVENESS

Recent studies show that online learning is an effective and reputable way to learn.

SAMPLE OF TOPICS INCLUDED IN OUR DISABILITY AWARENESS COURSE:
